

Cooling Tunnel System

Name	Cooling Tunnel Machine
Weight	150Kg/M
Capacity	100-2000Kg/Hr
Speed	Adjustable 1~15 M/min
Voltage	220V/380V
Power	10-45KW
Tunnel Temp	>3°C
Material of Frame	Stainless Steel
Material of Belt	White PU Belt (Food industry)
Application	Food Industrial Cooling
Drive Motor	SEW / CPG 1.1~5.5KW
Compressor	BITZER / COPELAND 5~25 Hp
Condenser	BITZER / COPELAND
Warranty	1 Year
Package	Wooden Case
Holding Time	1~60 min
Control Models	PLC & Touch Panel
Working Temp	-10~10 °C
Common Size	W=1150/1450/1750(mm)

Advantage:

- Specializing in this **cooling tunnel** field for more than **10** years, Have been the **Global Supplier** of multinational companies.
- Have **own R&D Dept.** & **Production** Equipment.
- A number of Practical Patents in the **Energy Saving** and **Environmental Protection**.
- CE,TUV, ISO, AQA Certificated.
- Nice appearance.
- Unique Design for **Easy cleaning** & **Maintenance**.
- Various of dimensions, customized is available.
- Precise temperature control** by separated zone used.

Benefit:

1. Consistency and flexibility.
2. Innovation.
3. Easy Clean and Maintenance.
4. Nice Appearance.
5. Reliability and Service.
6. Energy Saving and Environmental Protection.
7. Precise temperature control.
